INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Madam/Sir:

To comply with 37 CFR §1.97 and §1.98, Applicants submit the enclosed Form PTO-1449.

In accordance with MPEP §609 and §707.05(b), Applicants respectfully request that each document listed be given thorough consideration and that the Examiner cite each document of record in the prosecution history of the present application by initialing Form PTO-1449 next to each document. Applicants request such initialing even if the Examiner does not consider: (1) a listed document to be sufficiently pertinent to use in a rejection; (2) a document to be prior art for any reason; or (3) that the guidelines for citation have been fully complied with respecting a particular document. Applicants make this request so that each document becomes cited on the face of a patent issuing on the present application.

Applicants submit this Information Disclosure Statement in compliance with the duty to disclose information material to patentability under 37 CFR §1.56, but by listing such documents are not admitting that such documents are necessarily relevant or prior art. Applicants intend no representation that the listed documents represent the results of a complete search. Applicants anticipate that the Examiner, in the normal course of examination, will make an independent

search consistent with 37 CFR §1.104 and, in the course of such search, will review for relevance every document listed on the attached form even if not initialed.

The references cited in this information disclosure statement have been submitted to the Office in the parent application (Barta et al., Appl. No. 10/618,288 (filed April 25, 2003)). Copies of the references are therefore not being provided in accordance with 37 C.F.R. §1.98(d) and MPEP §609 Part III(A)(2). Applicants, however, will provide copies of such references upon request from the Examiner.

Applicants presume that the Examiner has access to the file history for the parent patent application. Applicants further presume that the Examiner is aware of the issues raised and the scope of claims in that case, and will take them into account when examining this patent application. Upon request from the Examiner, Applicants can provide copies of the substantive Office actions or any other information relating to those cases, to the extent Applicants have such information in their possession.

Applicants make no representation as to the accuracy of any translation that has been submitted in the parent application.

Applicants request early and favorable consideration of this patent application.

Applicants believe that they do not owe any fee in connection with this Information Disclosure Statement. If, however, Applicants do owe any such fee(s), the Commissioner is hereby authorized to charge the fee(s) to Deposit Account No. **08-0750**. In addition, if there is ever any other fee deficiency or overpayment under 37 C.F.R. §1.16 or §1.17 in connection with this patent application, the Commissioner is hereby authorized to charge such deficiency or overpayment to Deposit Account No. **08-0750**.
